

I understand that the LPFM stations may take priority over national FM stations. I hope that does not happen as there are several national stations, including KLOVE, that I enjoy listening to and for which I will be greatly disappointed if they are taken off the air. Many people in SE Idaho listen to KLOVE with its family-friendly broadcasting and uplifting music. I don't mind the LPFM stations coming on air--but not if they take priority over existing FM translator stations.
